

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

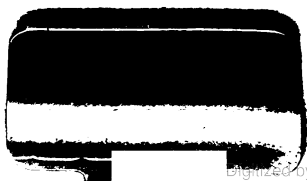

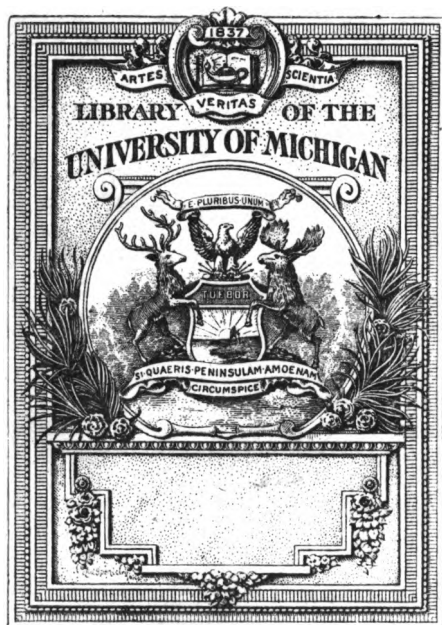

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GENERAL FUND.

This fund embraces all the revenues of the state applicable to the payment of the ordinary expenses of the state government.

The sources from which it is derived are a general fund tax, a tax on civil actions, license of railroad companies, log driving and booming companies, telegraph and telephone companies, street railway and electric light companies, insurance companies and hawkers and peddlers; fees received from notaries public, from various state offices and from the sale of books and reports.

The expenditures therefrom are authorized by permanent and temporary appropriations, and by the several laws requiring the Secretary of State to audit accounts.

A statement of the transactions of this fund will be found in detail under Appendix "A" in this report.

The receipts and disbursements have been as follows:

## STATE OF WISCONSIN.

## REPORT

OF, THE

## COMMISSIONERS OF PUBLIC PRINTING.

DEPARTMENT OF STATE,  
October 8, 1898.

To His Excellency, EDWARD SCOFIELD,  
*Governor of the State of Wisconsin.*

SIR:—In accordance with the provisions of section 335 of chapter 20 of the Wisconsin Statutes for 1898, we have the honor to submit our second biennial report of the transactions imposed upon us by chapter 20 of said statutes, for the fiscal term from September 30, 1896, to September 30, 1898, inclusive.

The amounts paid for publishing and advertising are as follows:

Publishing general laws in newspapers.....	\$49,900 00
Publishing local laws in newspapers.....	356 40
Advertising sales of lands.....	618 25
Miscellaneous publishing, advertising, etc.....	3,579 83
Publishing laws in state paper.....	2,295 25
	<hr/>
	\$56,749 73

## COST OF PRINTING, BINDING, ETC.

Total cost of printing for legislature.....	\$12,873 60
Cost of Blue Book (including compilation).....	16,483 49
Cost of all other printing required in the several departments .....	60,321 85
	<hr/>
	\$89,678 94

---

*Report of the Commissioners of Public Printing.*

---

The total cost of each department's printing is found in the Secretary of State's report. A detailed statement of each job, together with a sample and cost of the same, will be found filed in the office of the Secretary of State, in accordance with law.

In conformity to Section 297 of the Statutes, during the first week in June, 1898, we issued advertisements calling for proposals for doing the state printing, naming 12 o'clock noon, July 13, 1898, as the time when the proposals received would be opened and read. Said advertisements containing the necessary forms and instructions for the guidance of bidders. The following proposals were received

Bidders:	Per centum discount from maximum price.
Tracy, Gibbs & Co., Madison.....	67
State Journal Printing Co., Madison.....	67
Democrat Printing Co., Madison.....	70 5-6
M. J. Cantwell, Madison.....	50

Democrat Printing Company, having bid the greatest per centum of discount, and upon said company executing a contract prepared by the Attorney General and furnishing a satisfactory bond, it was awarded the contract and empowered to do all letter press printing, binding, ruling, blank books (including stock for binding), authorized or required by the legislature for its use or the use of the state in all its departments for the term of two years, from January 1, 1899, in accordance with the provisions of Chapter 20 of the Revised Statutes, and all other existing statutes or laws of the state relating to public printing.

PURCHASE AND COST OF PAPER.

During the past two years there has been expended for paper the sum of \$27,145.44; of this \$12,767.89 was in payment of the contract let April 19, 1898, to George A. Whiting, of Neenah, for paper of the first class, and the Standard Paper Company, of Milwaukee, for paper of the second class.

In accordance with law, we advertised for proposals to furnish paper for the state's work, on February 17, 1898. In conformity to said advertisements, the following bids were received and opened in the office of the Secretary of State, April 19, 1898, the time having been extended from March 23, 1898, the date originally assigned, at a meeting of the Commissioners held March 12, 1898.

*Report of the Commissioners of Public Printing.*

---

We wish to again call your attention to the recommendations made in our report dated October 10th, 1896. The same difficulties encountered in previous years and elaborated upon at length in said report, viz., the statutory provision requiring bidders to match a sample selected by us as a standard for each class and size, were met with in letting the last contract. An experiment was tried by citing in the advertisements the water marks of several well established and substantial manufacturers of flat papers, requiring bidders to furnish a paper containing any one of the water marks named. As all of the papers mentioned were of standard quality and the product of manufacturers enjoying high reputation, it was thought that the difficulty of furnishing an official sample and attempts by the successful bidder to match it was solved. The experiment proved only a partial success, however. As the result of this departure, the state secured a better quality of flat paper perhaps than at any time in its history, but the citation of water marks brought on a clash between manufacturers, and a claim that there had been unfair discrimination in the selection of water marks, and a bitter argument as to the grades of various stock and their market values. In the end, there was as much bitterness engendered as in previous years, and we desire to again urge more earnestly than ever that the laws relating to the purchase of paper be so amended as to permit the commissioners to invite bids from manufacturers or dealers, compelling them to furnish a sample of the stock they intend to sell the state, together with the price of the same. In this way, or by allowing the commissioners to purchase in the open market, all of the acrimony of purchasing paper under the present system can be obviated. At the same time it will enable the commissioners to see and know the stock they are purchasing before they enter into a contract. As book papers contain no water mark, the argument for a revision of the law obtains with double force in papers of this class.

During the early part of 1897 a decision was rendered by the Attorney General to the effect that the printing of the charitable, reformatory and penal institutions located throughout the state was strictly public printing, and must be done by the state printer. This has created many embarrassments, owing to a failure of the laws to cover the furnishing of stock to do the printing. The Superintendent of Public Property having no authority to provide letter heads and envelopes for these institutions, and the Commissioners having no authority to purchase the same, it devolved upon each institution to furnish its own stock. This not only resulted in the loss of time, but in the loss of money, as with proper laws, stock of this character might be provided for in the same manner as that of the several departments of the state government, and thus reap the advantage of purchasing in bulk from the lowest bidder, instead of in small quantities at several prices,

as is now the rule. We would therefore recommend a revision of the laws to accommodate this ruling of the Attorney General.

Another recommendation we would urge is the repeal of those laws which compel the Commissioners to advertise in Chicago papers. These papers are without the jurisdiction of the state, and therefore are not subject to the legal rates provided in the statutes. These advertisements are extremely costly, and the outlay is not sufficient in comparison to the returns.

# ANNUAL REPORT

## OF THE

### SUPERINTENDENT OF PUBLIC PROPERTY

*For the Fiscal Year Ending September 30, 1897.*

OFFICE OF THE SUPERINTENDENT OF PUBLIC PROPERTY,  
Madison, Wisconsin, October 1st, 1897.

To Honorable EDWARD SCOFIELD, Governor:

I have the honor to submit the following report of the transactions of the Department of Public Property, for the fiscal year ending September 30th, 1897, as required by law:

#### STATIONERY ACCOUNT.

Stock on hand October 1st, 1896, as per Exhibit "A" .....	\$2,075 09	..
Amount of stationery purchased during the year as per Exhibit "B" .....	7,647 94	
Stationery disbursed during the year, as per Exhibit "C" .....		\$5,618 41
Stationery on hand October 1st, 1897, as per Exhibit "D" .....		4,104 63
	\$9,723 03	\$9,723 03

#### GENERAL EXPENDITURES.

A statement herewith, marked Exhibit "E", shows the expenditures during the year in the Department of Public Property, other than for stationery. This account is somewhat swelled, owing to extraordinary expense incurred in putting in water pipe, building sidewalks, etc., and also to the further fact that the condition of the Capitol grounds and building necessitated the employment of extra labor and the purchase of extra material to put the same in passable shape.

#### EXECUTIVE RESIDENCE.

Exhibit "F" herewith shows the expenditures in detail at the Executive residence.

## BOOKS, PAMPHLETS, ETC.

Exhibit "G" herewith, shows the books on hand October 1st, 1896.

Exhibit "H" herewith, shows the books distributed during the fiscal year.

Exhibit "I" herewith, shows the books and condemned property sold during the year, amounting in the aggregate to \$226.70—which said sum has been paid to the State Treasurer.

Exhibit "K" herewith, shows a correct inventory of the books on hand October 1st, 1897, which are in good condition.

Exhibit "L" herewith, enumerates a list of books which are worm-eaten and otherwise in such a damaged condition as to render them worthless, and I would respectfully recommend that they be condemned and disposed of.

ANNUAL REPORT  
OF THE  
SUPERINTENDENT OF PUBLIC PROPERTY

*For the Fiscal Year Ending September 30, 1898.*

---

Office of the Superintendent of Public Property, Madison, Wisconsin,  
October 1st, 1898.

To the Honorable EDWARD SCOFIELD, Governor:

I herewith submit my annual report covering the transactions of the Department of Public Property for the year ending September 30th, 1898.

This report closes the biennial period, and it affords me great pleasure to be able to state, notwithstanding the extraordinary amount of labor expended and improvements made upon the Capitol grounds and building, and the Executive Residence and adjacent premises, that the expense of the Department has been greatly reduced below that of recent biennial periods. During the last two years the Capitol Building has been painted, and a great number of permanent improvements made therein, including a complete system of water connections, which affords ample protection from fire, and of which previously the Capitol Building has been almost entirely devoid; and metallic vault fixtures for the vault of the Superintendent of Public Instruction—the latter improvement being much needed, relieving the congested condition of the vault and furnishing abundant filing facilities for many years to come. New granolithic walks amounting in the aggregate to 3,800 square yards (775 square yards in 1897 and 3,025 square yards in 1898) have been laid in the Capitol grounds; the grounds have been graded and in most part newly sodded, and an effort made to add to their attractiveness.

A comparison of the expense of the Department for the biennial periods ending September 30, 1892, 1894, 1896 and 1898, shows well for the years 1897 and 1898. The total expense of the Department, including special appropriations and excluding salary of Superintendent and Assistant in each case, for the biennial period ending September 30, 1892, was \$186,091.76; for the biennial period ending September 30, 1894, was \$187,001.00; for the biennial period ending September 30, 1896, \$176,662.19; and for the biennial period ending September 30, 1898; \$167,-

*Report of Superintendent of Public Property.*

339.73—showing a difference in favor of the biennial period ending September 30, 1898, over the period ending September 30, 1892, of \$18,752.03; a difference in favor of the biennial period ending September 30, 1898, over the period ending September 30, 1894, of \$19,661.27; a difference in favor of the last biennial period over the period ending September 30, 1896, of \$9,322.46.

The expense of the Department for these several biennial periods after deducting the special appropriations made by the legislature, and over which the Superintendent has no control, and excluding the salary of Superintendent and Assistant in each case, was: for the period ending September 30, 1892, \$171,690.91; period ending September 30, 1894, \$184,394.10; period ending September 30, 1896, \$170,214.69; period ending September 30, 1898, \$161,250.92—showing a difference in favor of 1898 over 1892 of \$10,439.99; over 1894 of \$23,143.18; and over 1896 of \$8,963.77.

By reference to the summary of property on hand on Oct. 1st, 1897, in the report of this Department for the year 1897, it will be seen that the fuel then on hand amounted to \$250 and the sundry supplies to \$300. The fuel on hand at date of this report amounts to \$1,100.00, and the sundry supplies to \$550.00, entitling the Department to a credit of \$1,100 on last year's expense.

In the expense of the Department incurred on stationery account it is much more convenient to make comparison by biennial periods than by years. The amount of stationery disbursed by the Department during the biennial period ending September 30, 1892, was \$7,982.69; during the biennial period ending September 30, 1894, \$8,153.85; during the biennial period ending September 30, 1896, \$10,132.07; and during the biennial period ending September 30, 1898, \$7,538.84—showing a difference in favor of the last biennial period over the biennial period of 1892 of \$443.85; over the biennial period of 1894 of \$615.01; and over the biennial period of 1896 of \$2,593.23. This must be considered a very satisfactory showing, when the fact is known that the last legislature required this Department to furnish stationery to the Free Library Commission, four other commissions, and the Geological Survey, none of which had been supplied heretofore.

The following is a summary of the account in question:

STATIONERY ACCOUNT.
